Background information

The Media, Information and Communication Technology Sector Education and Training Authority ("MICT SETA") is a statutory body established through the Skills Development Act, of 1998 section 10 (1) (a). The SETA was established to offer support to its stakeholders through skills development imperatives within the Advertising, Film and Electronic Media, Electronics, Information Technology and Telecommunications sub-sectors.

In accordance with the Skills Development Act 1998 Section 10(1) (a) each SETA is required to develop a Sector Skills Plan (SSP) within the framework of the National Skills Development Plan (NSDP). The SSP development is based on the view that the research itself is a national document, therefore, it should be used by all stakeholders, policy makers and the SETA staff. It should be used as one of a range of critical documents to inform skills planning and strategic decision in the SETA and the entire sector. The MICT SETA aims to address skills development priorities determined by the sector for the purpose of enhancing skills and ensuring the development of a skilled and capable workforce.

Overall Objective of the Project

The main purpose of a Sector Skills Plan is to:

- Inform supply-side planning in post-school institutions;
- Determine funding priorities via the levy grant system;
- Support employer plans;
- Inform allocation of resources to develop qualifications and learning programmes;
- Establish occupation-specific skills priorities for the sector.
- Inform education and training institutions of demand needs in the labour market.
- Enable individuals to make informed career choices.
- Monitor skills development provision in the sector.

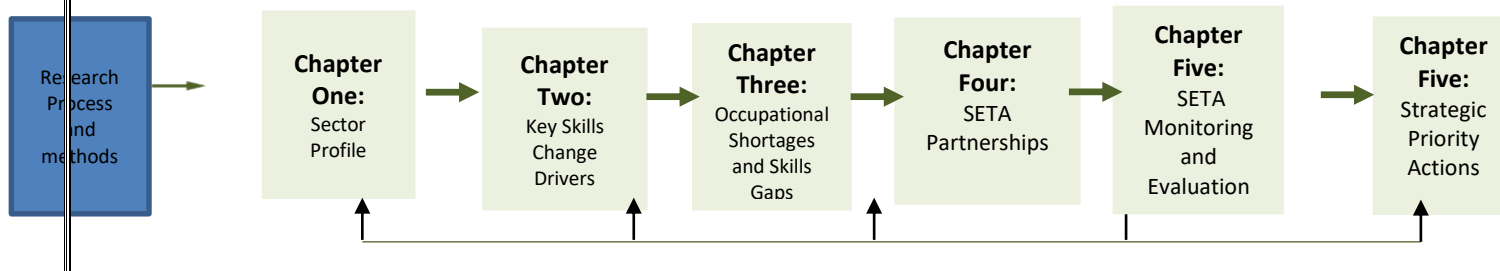

Thus, the MICT SETA seeks to appoint a professional and competent research service provider to support the SETA in conducting research and outlining the skills requirements within its five sub-sectors. This research will ensure that the SETA has relevant and updated information to allow it to perform its strategic skills planning functions for the sector.

This request is solely on the foundation that the successful service provider will provide research support as part of the SSP update for the 2021/22 financial year. The research will be conducted on a 60/40 basis, with the MICT SETA Sector Skills Planning Researcher completing 40% of the total workload.

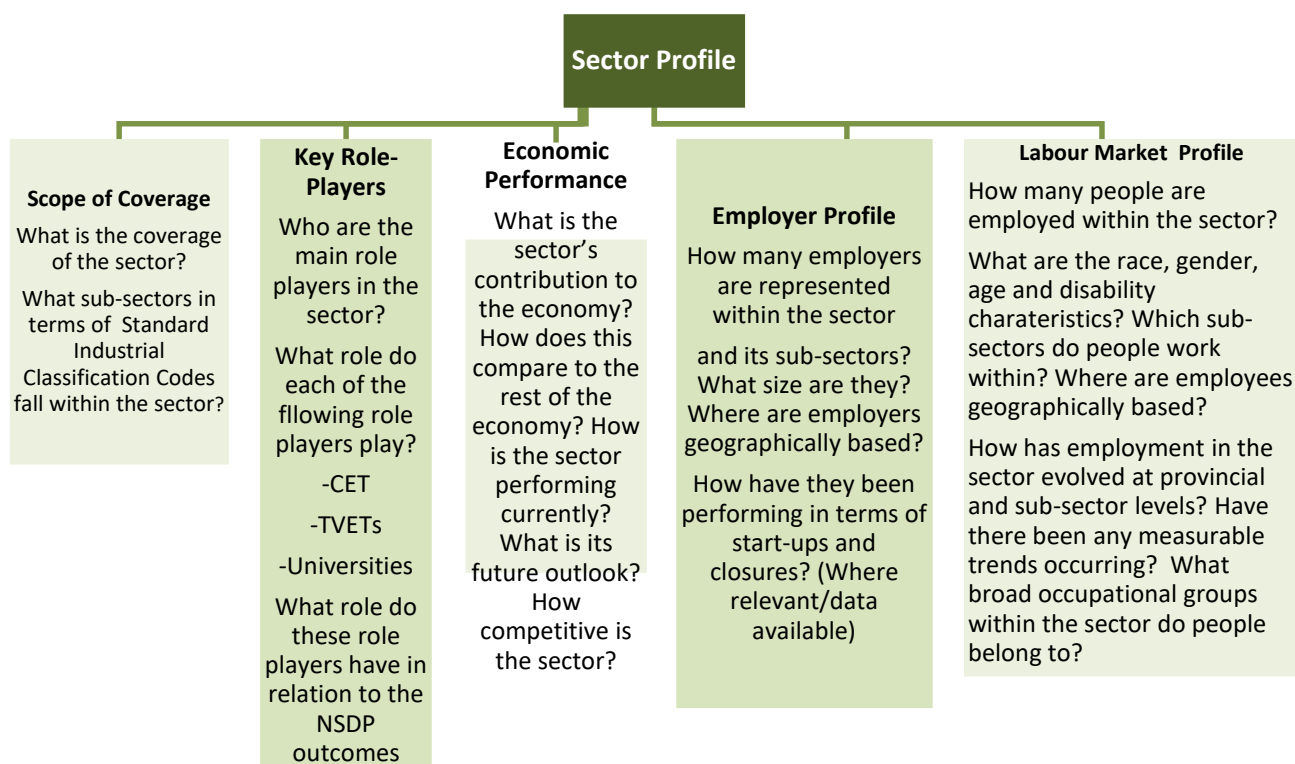

Scope of work/Terms of Reference

The successful service provider will commence with the project on the **1st of March 2021** and work with the MICT SETA's SSP researcher on a 60/40 basis. The service provider will research and prepare the SSP in line with the Department of Higher Education and Training (DHET) 2021/22 SSP framework. Research focus areas include (but not limited to) the following:

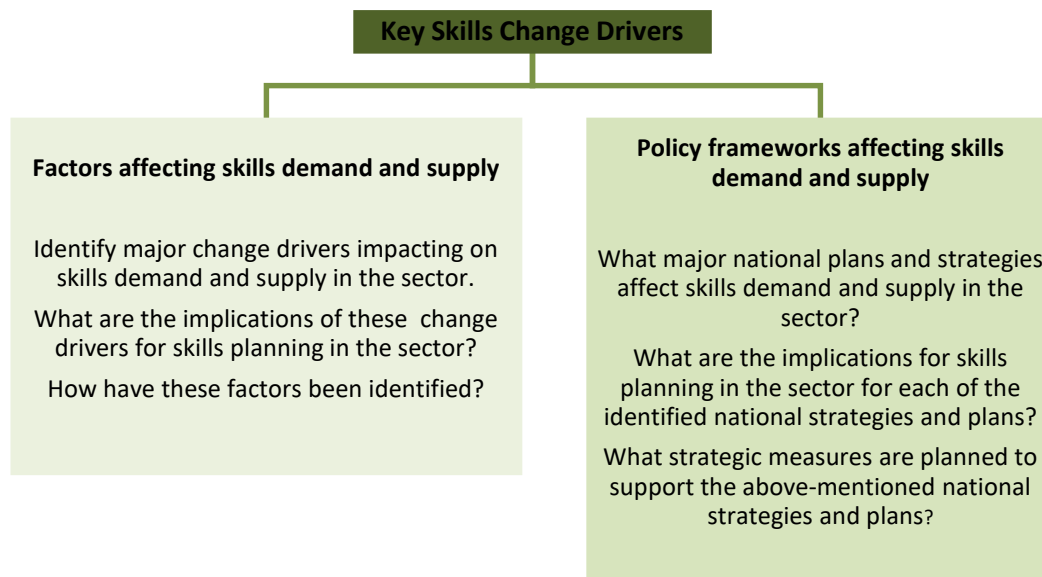

Structure of SSP

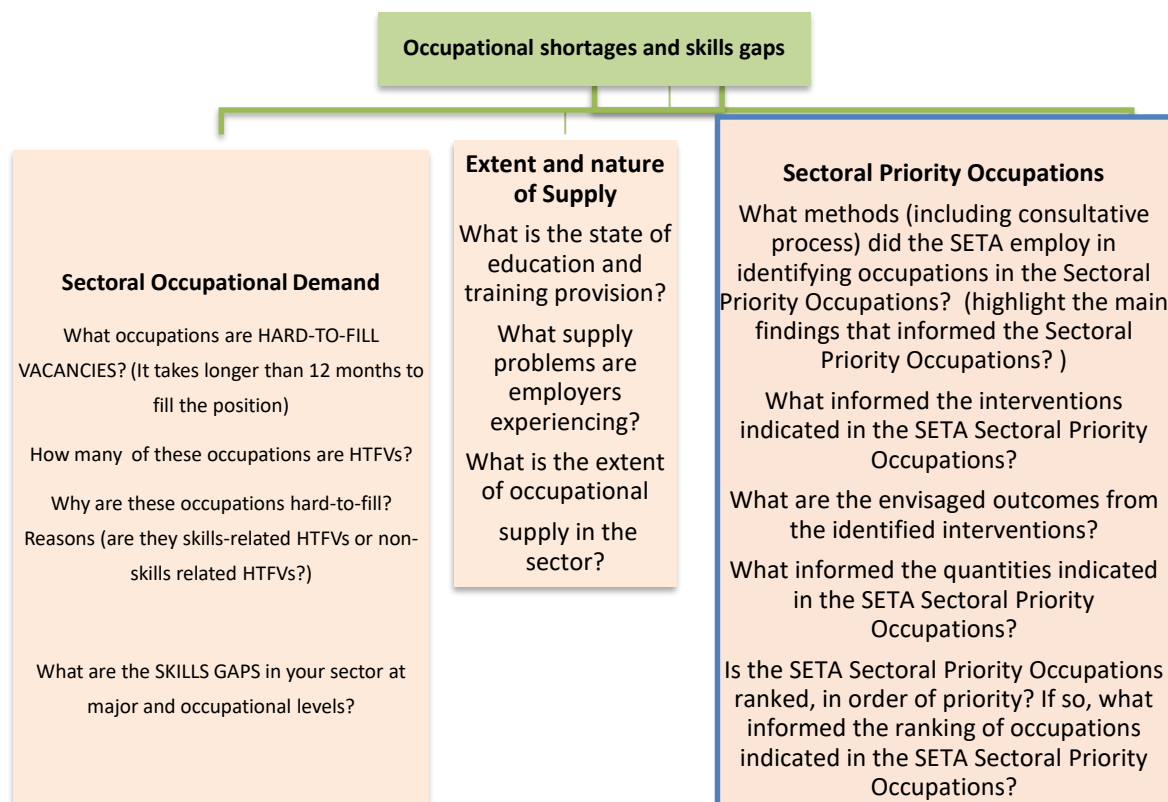

Chapter 1: Sector Profile

Chapter 2: Key Skills Change Drivers

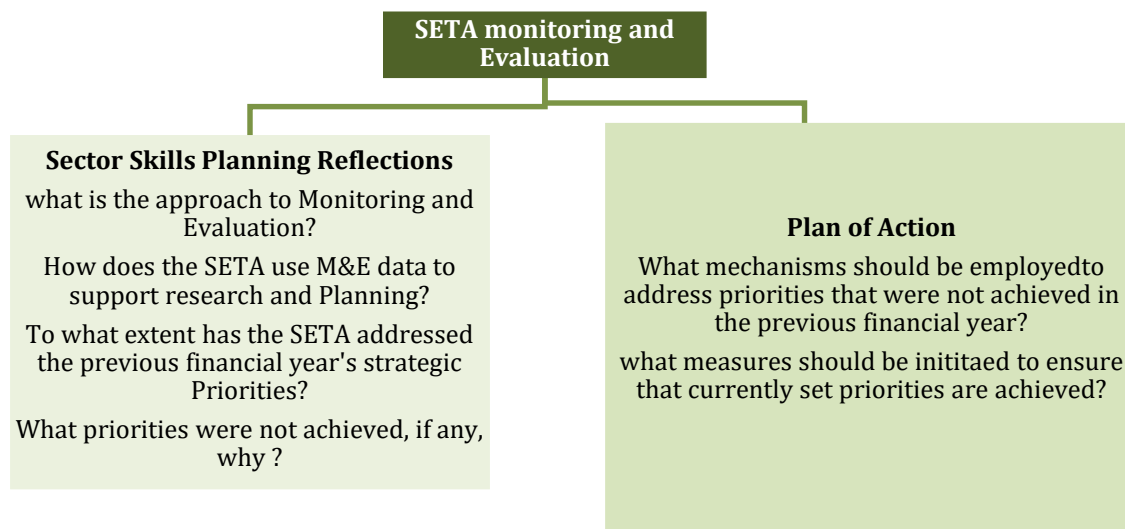

Chapter 3: Occupational Shortages and Skills Gaps

Chapter 4: SETA Partnerships

Chapter 5: SETA Monitoring and Evaluation

Chapter 6: SETA Strategic Skills Priority Actions

Strategic Skills Priority Actions

Key skills Findings from Previous Chapters

What are the key skills findings from the
4 preceding chapters?

Recommended priority Actions

What are the key strategic skills priorities for
the sector in response to the following:

- Transformational imperatives?

- 4th Industrial Revolution?

- Support for SMMEs and entrepreneurship?

What NSDP outcomes are these strategic skills
priority actions responding to?

Methodology

The service provider will be expected to design and apply tools which will produce analyses of valid and reliable data. This will include, but not limited to; literature reviews, surveys, interviews with key stakeholders and focus groups. Furthermore, the service provider is expected to propose a methodological approach that is applicable to the research questions in the latest SSP update. Below are some of the recommendations based on previous work undertaken:

- Defining and describing the sector; this will involve mainly desktop research to produce a clear definition of the MICT sector, including its five sub-sectors. It is also important to define relationship boundaries.
- Reviewing sectorial, key national policies and other measures to determine alignment.
- Conducting analysis of remuneration levels and other trends in the sector using desk research and analysis of databases such as Stats SA, HETMIS, Quantec and Business Monitor, etc.
- Examining linkages and alignment to national strategies and priorities using scenario thinking to understand and anticipate future trends for the MICT sector.
- Analyzing Work Place Skills Plans (WSPS) and Annual Training Reports (ATRs) that are submitted by employers.
- Evaluating skills needs of different sub-sectors of the MICT SETA. This will exclude data from WSPs.
- Organizing focus groups to test findings of desk, data and field research. This will be to explore potential strategies for the expanding sector, at the same time improve on labour absorption levels
- Implementing supply side analysis based on current programmes available to meet the demands of the sector.
- Improving the process of consultation within the SETA to validate the SSP with Stakeholders, including presentation, preparation and facilitation of discussion where required.
- Reviewing and preparing the final SSP for submission based on stakeholder inputs.

Deliverables

- The service provider shall deliver the SSP document, which should be no longer than 65 pages, to meet the DHET's 2021/22 SSP framework requirements.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregards the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price Bid, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
