

ANNEXURE A: FUNCTIONAL COMPLIANCE FORM (WIRELESS BOARDROOM CONFERENCING SOLUTION): RFQ/MICT/90/2022

Name of Bidder:

At a minimum, the Wireless Boardroom Conferencing Solution must comply with the specification as articulated below and in the Terms of Reference.

No.	Functional Category	Bidder's Compliance with Spec Comply (Y/N)
1.	Eliminate sound echo	
2.	Supported OS (Windows, Android, iOS)	
3.	Integration with Microsoft Teams, Zoom, Google, WebX and Convene platforms	
4.	Wireless conferencing	
5.	Allow simultaneous connections	
6.	Bandwidth utilization intelligence (Auto Upscaling/Downscaling)	

Compliance with the above technical requirements is necessary as it is assumed that these are minimum functionality of the ideal MICT SETA Wireless Boardroom Conferencing Solution. Any bid that does not substantiate compliance with the spec in the corresponding column of the form will be deemed non-responsive.

The MICT SETA assumes that all bidders responding to this bid are specialists and experienced. Accordingly, the successful bidder will be required to assist the MICT SETA to achieve the objectives of this project.
