# REQUIREMENT DESCRIPTION: APPOINTMENT OF A COMPETENT SERVICE PROVIDER TO ASSIST MICT SETA WITH THE DESIGN OF A COSTING MODEL FOR SUBSCRIPTION SERVICES OF MICT SETA TECHNOLOGY SYSTEMS

#### 1. INTRODUCTION

The Media, Information and Communication Technology Sector Education and Training Authority ("MICT SETA") is a statutory body established through the Skills Development Act, No. 97 of 1998 section 10 (1) (a). The SETA has a mandate to facilitate skills development. Adhering to the key principles of the Skills Development Act and the National Skills Development Plan (NSDP), the SETA seeks to facilitate alignment between skills supply and demand by enhancing the linkages between institutional and workplace learning. The mandate adopted by the SETA is derived from the broader plan of government, namely the NDP, which aims to put in place the framework to build capabilities of South African citizens.

The SETA was established to offer support to its stakeholders through skills development imperatives within its five (5) distinct sub-sectors of Advertising, Electronic Media and Film, Electronics, Information Technology and Telecommunications.

The MICT SETA partners with different stakeholders from private sector and 4IR Research Chairs from different institutions of higher learning / universities to develop technology systems. Once developed, these technology systems will enable access by other state institutions and entities as part of ICT Shared Service model as spearheaded by MICT SETA and / or private companies for purposes of commercialisation of the said technology systems.

A Costing Model for which accurately estimates project costs throughout the lifecycle of different technology system is required. Designing an accurate Costing Model will be achieved through a detailed process that includes identifying cost drivers, defining the scope of the projects, and using relevant estimation techniques.

The MICT SETA seeks to appoint a service provider that will assist the organisation to design the Costing Models of its technology systems. Competent and experienced bidders are invited to submit bid proposals for this service.

#### 2. PURPOSE

The purpose of this request is to invite competent and suitably experienced Service Providers to assist the MICT SETA with the design of the Costing Model that will be used to estimate the total costs of the Integrated Learner Management System (ILMS) project implementation to MICT SETA, customisation of the system to onboard other Parties on the system throughout its lifecycle, including implementation, support, and maintenance processes. The appointed service provider will assist to insource and onboard SMME Service Providers to enhance, support, and maintain solutions designed and developed though the MICT SETA 4IR Research Chairs (Universities), as part of the MICT SETA's drive to institutionalise the Triple-Helix Model of innovation.

The appointed Service Provider will be expected to promote innovation in the execution of the scope of service for a Costing Model that is both practical to the current and future processes.

# 3. OBJECTIVES

The Costing Model will be used to estimate the total cost of the ILMS project implementation for MICT SETA, onboarding of other Parties into the system through customisation including development, implementation, and ongoing maintenance throughout its lifecycle.

#### 4. COMPETENCIES OF THE SERVICE PROVIDER

Competencies of the service provider must include:

- 4.1. The Service Provider must have demonstrable experience in design costing models for different projects in Information and Communications Technology (ICT), infrastructure, systems development, engineering, or related.
- 4.2. Experience of working in multidisciplinary and multicultural teams.
- 4.3. Provision of all required resources such as the specialists, tools, software and any resources to execute the project.
- 4.4. Strong research background and demonstrated experience undertaking research costing related exercises.
- 4.5. Available resources throughout the project execution.
- 4.6. Expertise at collecting, synthesising, and reporting information.
- 4.7. High level of financial literacy, i.e., with budget related information.
- 4.8. A team of Project Manager, Cost Analysts, and Technical Specialists.

#### 5. MINIMUM REQUIREMENTS FOR DESIGNING THE COSTING MODEL

#### 5.1. **Data Collection**

To design a complete and holistic Costing Model, the service provider will be required to consider critical information required to systems development, which includes:

- a) Relevant documentation of designing and customising the system which includes Project Charters, Project Plans, system requirements specifications, functional requirements specifications, test cases, and user sign-offs
- b) Relevant teams required to building, customise, and support the system at all levels.
- c) Interviewing key resources involved in the building and customisation of the system such as Project Sponsor, Project Owner, Risk and Compliance, Legal and Compliance, Development Teams, support teams and other critical Stakeholders involved in the project.
- d) Review of the support structure required support and maintain the system throughout its lifecycle.
- e) Review the infrastructure, hosting, and security platforms.

## 5.2. Designing the Costing Model

Designing the Costing Model must include the following, without limitation:

- a) The Costing Model must include all development, implementation, and maintenance costs for the system from when the process was initiated in 2021 until 2030, with specific costs for hardware, software, and personnel.
- b) Detailed cost breakdown must be provided, including unit costs, labour hours, and material costs.
- c) The cost drivers and factors will also include development and customisation hours, software licensing, training costs, and ongoing maintenance costs.
- d) Historical data from similar projects must be used, along with vendor costs for both hardware and software, and maintenance personnel.
- e) The model must be designed to be flexible to allow utilisation of a combination of bottom-up estimation (detailed costs estimation of individual components) and parametric estimation (using historical data and project specific factors).
- f) The model must be developed using a spreadsheet with a user-friendly interface and cost breakdowns.
- g) The model must be validated against historical data and benchmarked against similar projects. The model will be reviewed by a team of experts to ensure its accuracy.
- h) Regular reports will be generated to key stakeholders, with clear overview of projected costs and any potential risks or variances.

RFQ NUMBER: RFQ/MICT/42/2025 6 of 19  $\mid$  P a g  $\in$ 

# 5.3. **Designing the Costing Model**

At a minimum, the key deliverables of the project will include the following:

- a) A Project Methodology and Plan must be developed and submitted with the proposal.
- b) A Comprehensive First Draft Costing Model must be presented for inputs by MICT SETA.
- c) A Comprehensive Final Costing Model of the Integrated Learner Management System (ILMS).
- d) Spreadsheets must also be provided for the actual costing.
- e) The Service Provider will report to the Chief Information Officer (CIO) or the delegated Project Manager.

#### 7. EVALUATION CRITERIA

MICT SETA complies with the provisions of the Public Finance Management Act, Act No. 1 of 1999 as amended; Treasury Regulations of 2005; the Preferential Procurement Policy Framework Act, Act No. 5 of 2000; Preferential Procurement Regulations of 2022; and the MICT SETA Supply Chain Management (SCM) Policy.

RFQs received will be evaluated on functional evaluation criteria and Price & Specific goals comparison.

#### 7.1. STAGE 1: FUNCTIONAL EVALUATION CRITERIA

Bids submitted will be evaluated on technically functionality out of a maximum of **100 points**. A threshold of **70** out of the **100** points has been set.

Only bidders that have met or exceeded the qualification threshold on technical functionality of **70** points will move to the next stage of evaluation.

**Note:** All bidders achieving less than the set threshold of 70 points will be declared non-responsive.

Assessment of evaluation of the functional/technical criteria will be based on the table below:

Note: Bidders that do not meet the requirements of set functional criteria will be declared non-responsive.

# 1.2 To be completed by the organ of state

- a) The applicable preference point system for this tender is the **80/20** preference point system.
- b) the **80/20 preference point system** will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.
- 1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:
  - (a) Price: and
  - (b) Specific Goals.

# 1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

- 1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.
- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

RFQ NUMBER: RFQ/MICT/42/2025

## 2 DEFINITIONS

- (a) "tender" means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) "price" means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) "rand value" means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) "tender for income-generating contracts" means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) "the Act" means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

#### 3 FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

#### 3.1. **POINTS AWARDED FOR PRICE**

# 3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80\left(1 - \frac{Pt - Pmin}{Pmin}\right)$$
 or  $Ps = 90\left(1 - \frac{Pt - Pmin}{Pmin}\right)$ 

Where:

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration Pmin = Price of lowest acceptable tender

# 3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

#### 3.2.1. POINTS AWARDED FOR PRICE

$$Ps = 80\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$
 or  $Ps = 90\left(1 + \frac{Pt - Pmax}{Pmax}\right)$ 

Where:

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration Pmax = Price of highest acceptable tender

#### 4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
  - (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
  - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below. Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)
