ANNEXURE A: TERMS OF REFERENCE /SPECIFICATION

REQUIREMENT DESCRIPTION: APPOINTMENT OF A SERVICE PROVIDER FOR THE PROVISION OF SIGNIFLOW LICENSES FOR A PERIOD OF 12 MONTHS

1. INTRODUCTION

The Media, Information and Communication Technologies Sector Education and Training Authority, the "MICT SETA", was established in terms of the Skills Development Act, 1998 (Act No. 97 of 1998). Is responsible for skills development for its respective sub-sectors. The MICT sector is made up of five sub-sectors that are interconnected but also quite distinct and identifiable. These are Advertising, Film and Electronic Media, Electronics, Information Technology and Telecommunications.

2. BACKGROUND

- 2.1. The MICT SETA has adopted digital transformation initiatives to enhance operational efficiency, ensure regulatory compliance, and support a paperless working environment. One of the critical enablers of this digital transition has been the implementation of SigniFlow, a secure and compliant digital signature and document workflow management platform.
- 2.2. SigniFlow has been successfully integrated into MICT SETA's internal business processes to facilitate the secure signing, routing, and management of official documents such as contracts, memoranda, submissions and procurement-related documentation. The platform plays a pivotal role in ensuring:
 - 2.2.1. Legally binding digital signatures in line with the Electronic Communications and Transactions (ECT) Act of South Africa.
 - 2.2.2. Workflow automation for document approval cycles, reducing turnaround time.
 - 2.2.3. Audit trail and traceability of all transactions for governance and compliance purposes.
 - 2.2.4. Remote accessibility, allowing continuity of operations in hybrid or remote working environments.
- 2.3. The current SigniFlow license subscription is due to expire, and its renewal is essential to avoid disruptions in critical business functions. Failure to renew the licenses may lead to a regression to manual, paper-based processes, increased administrative overhead, and potential non-compliance with internal control and audit requirements.
- 2.4. Given the proven value and usage across multiple departments within MICT SETA, the renewal of SigniFlow licenses will ensure continuity of services, maintain information security standards, and uphold the principles of digital governance and efficiency.
- 2.5. The services provider must be a suitable, qualified, and experienced industry partner with high sense of integrity who will play the role of providing the required license renewal, conduct user training, integrate the system with the ERP and ILMS and provide maintenance and support of the SigniFlow system.

3. PURPOSE

To invite service providers with the necessary expertise and experience to submit proposals for the renewal of the SigniFlow licenses is to ensure the continued use of a secure, efficient, and legally compliant digital document signing and workflow solution across the MICT SETA.

SigniFlow is a critical enabler of the organization's digital transformation strategy and supports the seamless execution of core business processes that require electronic approvals, document routing, and audit-compliant digital signatures.

RFQ NUMBER: RFQ/MICT/76/2025 5 of 15 \mid P \mid g \mid e

The following were identified as objectives for the renewal of the SigniFlow Software Licenses:

4.1. Ensure Business Continuity.

Maintain uninterrupted access to SigniFlow's digital signing and workflow functionalities, which are integral to daily operations such as procurement approvals, HR processes, financial signoffs, and executive submissions.

4.2. Enhance Operational Efficiency.

4.3. Promote Compliance and Security.

To ensure compliance with relevant legislation such as the Electronic Communications and Transactions Act (ECTA), the Protection of Personal Information Act (POPIA), Business and ICT governance policies.

4.4. Support Remote Collaboration.

To enable secure, remote signing and approvals to accommodate staff working off-site or in hybrid arrangements.

4.5. Preserve Audit Trails and Document Integrity.

To ensure secure, time-stamped, and traceable records of all signed documents, which are critical for audits, reporting, and regulatory compliance.

4.6. Support and maintenance of the solution.

To provide post renewal support and maintenance of the solution.

4.7. User training.

Provide user training when required, e.g. new employees joining the organisation.
